Wonder Bumpers

Posted by [Lisa Rosenblatt](#) at 11/30/2009 9:59 PM PST

Looking for a smart solution for your baby's crib bumpers? Worried sick about the air flow in your baby's crib?

Wonder Bumpers has developed a solution that is definitely innovative and creative. Wonder Bumpers' sleek, vertical padding, which tightly wraps around each individual crib rail, finally provides a solution to this long-standing issue. Their shape reflects the vertical

design of a crib and enhances the safety features already built into it.

Parents can now rely on a crib bumper to truly protect their baby from the time she is born until she can sleep in a regular bed. My daughter was using her beautiful bumpers to step on and try to escape! We tried these Wonder Bumpers and they are great.
